

Open House

5th Floor CLS, Wed. December 10, 12:00pm – 3:00pm
Presented by

BIDMC Genomics and Proteomics Center

CLS 543, Center for Life Science Boston, 3 Blackfan Circle, Boston

www.bidmcgenomics.org

Beth Israel Deaconess
Medical Center

A teaching hospital
of Harvard
Medical School

Come Meet
Us and Tour
Our New
Facility

High Throughput Affymetrix GeneChips

New Affymetrix GeneChip®HT
Array Plate Scanner

Cost effective, efficient,
reproducible, precise, and more
sensitive

Up to 96 Samples on One Run
with as little as 50ng of RNA; picograms with LCM

- Fully automated robotics
- Quick turn around

Quantitative Proteomics and Protein Identification

- Relative quantitation
by μ LC/MS/MS
- iTRAQ – 8-plex
isobaric peptide
tagging system
- Protein profiling of
complex biological
samples such as serum, urine, tissue, cell
extracts

Bioinformatics

- Systems biology
analysis from proteomic
and genomic data

Food & Drink
will be
provided
